

New to Creo?

If you are new to Creo Parametric, the videos in the playlists below will help you on your journey. Note that these videos are NOT a substitute for formal training. Nothing compares to instructor-led training. [PTC University](#) is one of your best options for training. However, if training is not an option, you can start with these YouTube playlists:

[Creo Parametric Tutorials for Absolute Beginners – Series 1](#)

[Creo Parametric Tutorials for Absolute Beginners – Series 2](#)

[Sketching Basics](#)

[Part Modeling Basics](#)

[Assembly Basics](#)

To continue your part modeling journey, watch these playlists:

[Sweeps](#)

[Blends](#)

[Engineering Features](#) – Holes, Shells, Ribs

[Rounds](#)

[Chamfers](#)

[Draft Feature](#)

[Surfacing Basics](#)

[Patterns](#)

Playlists on assemblies:

[Advanced Assembly Tools](#)

[Component Interfaces](#)

[Replace Command](#)

[Mechanism Connections](#)

For 2D production drawings and drafting, watch these playlists:

[Drawing Process Overview](#)

[Starting a New Drawing and Creating Views](#)

[Sections](#)

[Detailing](#)

[Symbols](#)

[Bills of Materials \(BOMs\)](#)

If you will be working in Sheetmetal, watch these playlists:

[Primary Walls](#)

[Secondary Walls](#)

[Sheet Metal Features](#)

[Bends](#)

[Forms](#)

[Flattening](#)
